Anthelio Healthcare Solutions Celebrate 15 Years of Providing Sustainable Value to the Healthcare Industry

Anthelio Healthcare Solutions, the largest independent provider of technology and services to hospitals, physician practice groups and other healthcare providers, is celebrating 15 years of growth, innovation and progress this month with a variety of celebrations throughout their global organization. Founded in 1999 in Dallas, TX, the company started small with just four employees and five personal computers, but in the ensuing 15 years has grown to be an industry leader in healthcare technology and a global organization with 1,800 employees around the world who impact quality care to over six million patients.

"Anthelio has a proud 15-year tradition of providing innovative products and services that deliver sustainable value to the healthcare industry," said Asif Ahmad, CEO, Anthelio Healthcare Solutions. "From our earliest beginnings, our focus has always been on listening to our customers and crafting solutions that anticipate, meet or exceed their needs. This has been our roadmap to success, and one that still guides us today," he noted.

Anthelio Healthcare focuses exclusively on the healthcare industry and has deep clinical expertise within all levels of the organization, providing an understanding of healthcare that is invaluable to clients. Anthelio is one of very few healthcare IT companies with a CEO who has extensive experience in healthcare as well as technology.

"Since our sole focus for the past 15 years has been healthcare, we know this market inside out," said Ahmad. "We understand the challenges healthcare providers face every day when they strive to deliver quality care, as the majority of our employees come from a healthcare background. This deep healthcare knowledge has served us well, allowing us to become a leader in the industry by providing high value products and services that help providers stay ahead of the changing healthcare landscape," he explained.

Just as in its early days, Anthelio remains committed to developing innovative ways to use technology to re-engineer business processes to improve patient care, enhance operational efficiency and achieve significant cost advantages while maintaining the highest levels of client satisfaction to over 20,000 physicians and nurses in more than 100 healthcare organizations across the United States. Anthelio offers a full suite of end-to-end technology solutions in the areas of IT, EHR, Health Information Management, Patient Engagement, Enterprise Interoperability and Healthcare Analytics & Informatics, all designed to address the escalating demands of government mandates, financial pressures and quality improvement requirements.

The company is the recognized industry leader in coding quality and codes nearly two million charts annually. It is ranked #1 in Quality for outsourced coding by KLAS, the eminent healthcare rating organization (March 2014 report). From coding services to analytic solutions that provide the business intelligence healthcare organizations

need to make critical decisions, Anthelio is the single source solution healthcare providers rely on every day to support the delivery of high quality care to patients. Throughout the years, Anthelio has gained a well-earned reputation as a trusted, knowledgeable partner that provides leading-edge technology solutions to help providers meet today's challenges as well as tomorrow's.

Anthelio is poised for continued growth and success in the future and well positioned to maintain its leadership role in healthcare technology. Given the industry's current focus on Value Based Care and Population Health Management, Anthelio's products and services are more relevant and mission critical than ever before, as healthcare providers attempt to navigate today's rapidly changing healthcare landscape.

"It is rewarding to look back on all that Anthelio has accomplished during the past 15 years, and very exciting to look ahead at the future, which holds much opportunity for us," said Ahmad. "The company's achievements during the past decade and a half have been very significant, and provide a strong foundation for us as we move forward. We will continue to build on the growth and progress that is our legacy today, focusing on providing sustainable value to our healthcare provider partners just as we have in the past," he concluded.

About Anthelio
