

## Anthelio Healthcare Solutions Receives KLAS Ranking for Outsourced Coding Services

March 07, 2014

<http://finance.yahoo.com/news/anthelio-healthcare-solutions-receives-klas-164700906.html>

Anthelio Healthcare Solutions, the largest independent provider of technology and services to hospitals, physician practice groups and other healthcare providers, is the only ranked vendor in the area of Outsourced Coding Services in the 2013 Best in KLAS: Software and Services report. “Being ranked by KLAS is exciting. Our goal at Anthelio Healthcare is to provide sustained value to our clients. We listen to our providers and we are proud that we are meeting their expectations. It is clear that the efforts by our global team of certified coders are making significant results in the healthcare industry,” said Asif Ahmad, CEO of Anthelio Healthcare Solutions.

KLAS report includes several comments from healthcare professionals and clinicians in the industry about Anthelio Healthcare outsourced coding services. The following are selected commentaries that may not represent the whole of provider sentiment related to this service. KLAS research.com provides a complete view.

“One of the reasons we brought Anthelio Healthcare in was because we did not have a good CDI program. We have seen a lot of value since bringing Anthelio Healthcare in. Their yearly goal is to save us \$1,000,000 or increase our net revenue by \$1,000,000, and they have either been very close to that goal or exceeded that goal each year. To be honest, that is the reason I can pay for their service.” – CFO. Collected by KLAS Feb. 2014. KLAS Enterprises LLC.

“Anthelio Healthcare is definitely ahead of the game for ICD-10. They have been ahead for about four years now, so their staff training is very good.” — Manager, Collected by KLAS Jan. 2014. KLAS Enterprises LLC.

“Anthelio Healthcare provides a good service. They are flexible about the fact that the work is always consistent, and they never complain. They can get things turned around on short notice, which is extremely important to us. Their accuracy is very solid.” — CEO/President/Executive, Collected by KLAS March 2013. KLAS Enterprises LLC.

“Anthelio Healthcare’s key strength is communicating back to the facility. They do a good job of asking good questions and keeping us informed about what is happening. They stay right on top of turnaround times and strive to do a good job for us. They are very aware of HIPAA regulations and follow those to a tee. They do a good job of auditing their coders, and they are way better than the other firms I know.” – Director, Collected by KLAS Jan. 2014. KLAS Enterprises LLC.

"I like Anthelio Healthcare's turnaround time. Anthelio Healthcare answers any questions. They are right there to help us and answer any questions. They are very prompt about getting back with me. They meet our needs and often go above and beyond our expectations." – Manager, Collected by KLAS Jan. 2014. KLAS Enterprises LLC.

"Anthelio Healthcare is very timely and knowledgeable, and the coders are up to date on which codes we need. If we have questions about ICD-10, Anthelio Healthcare is able to answer them." – Director, Collected by KLAS Dec. 2013. KLAS Enterprises LLC.

Anthelio Healthcare recently achieved International Organization for Standardization (ISO) certifications for Quality Management System (ISO 9001:2005); Information Security Management System with compliance (ISO 27001:2005) and Information Technology Service Management System (ISO 20000:2011) for its continual maintenance of standards and processes in the offshore HIM division. The certifications confirm that the performance records of Anthelio Healthcare's offshore HIM department is exceeding the norms prescribed in the customer Service Level Agreements accuracy of over 95 percent.

"Being the only vendor ranked by KLAS for outsourced coding services in the Best in KLAS report and having a dedicated offshore coding team help us continue to exceed our clients' expectations. Achieving readiness for ICD-10 is a key concern in the healthcare industry. Further, many HIM executives are struggling to keep up with the increasing coding demands. Having certified IT systems that are HIPAA compliant allows us meet these industry demands," said Asif Ahmad

## **About Anthelio**
