

HALO™ Medical Coding Services

Optimizing HIM Performance With Efficient Medical Coding Solution

Hospitals and healthcare providers continue to struggle to meet the increasing regulatory and operational challenges. Some of the medical coding challenges include

- Lack of skilled resources and staffing issues
- Anticipated drop in productivity with ICD-10
- External audits/denials

Anthelio's medical coding solution integrates people, processes and technology to support healthcare providers' revenue cycle activities and ensures accurate, compliant coding while mitigating risk and providing high quality services.

Anthelio's Medical Coding Expertise

Complete HIM Solution:

Anthelio offers a comprehensive coding solution with more than 2 million charts coded annually across all chart types. Anthelio's HIM expertise includes clinical documentation, ICD-10, auditing, and compliance with a deep understanding of the overall workflow of healthcare delivery. Anthelio's HIM employees have over 15 years of coding audit and management experience.

ICD-10 Ready:

All coders are ICD-10-CM/PCS trained and are currently dual coding. The team also includes managers and auditors that are AHIMA approved ICD-10 trainers, including AHIMA ICD-10 Ambassador.

Quality Assurance:

What Our Customers Are Saying About Us!

"Anthelio is a wonderful company to work with. Their staff members and coders are all professional, hardworking, and truly dedicated to our accounts. The quality of their coding consistently meets and/or exceeds the Health System standard. In addition to the quality of their coding, they are able to meet our demands for timely coding; this has enabled us to keep our DNFC low continuously, regardless of the time of year, and in spite of holidays. I would recommend Anthelio to anybody in need of great coding and can attest to the great assistance they have provided to St. Joseph Health over the past several years."

Jenna L. Van Otterloo,
Coding Manager, St. Joseph RCS
