

Anthelio Healthcare Solutions Ranked #1 in HIM Outsourcing by Prestigious Black Book™

Top ranking reflects Anthelio's commitment to providing sustainable value to its customers

Dallas, Texas. March 9, 2016 —Anthelio Healthcare Solutions, the largest independent provider of technology and services to hospitals, physician practice groups and other healthcare providers, has been ranked #1 in 2015 HIM Outsourcing Solutions by Black Book, a leading independent research firm in the healthcare IT industry. Outsourcing end-to-end IT and Revenue Cycle Management and Health Information Management services is a core business activity of Anthelio, providing flexible, cost-effective technology solutions to providers that enable and empower their existing resources. Supported by a world-class team, Anthelio's unique expertise in healthcare technology provides a full spectrum of patient care industry-leading solutions that serves over 65,000 physicians and nurses in 500 healthcare organizations across 27 states.

"We are honored to be recognized as the 2015 leader in HIM Outsourcing by Black Book," said Asif Ahmad, CEO, Anthelio Healthcare Solutions. "This recognition validates our effort and commitment to provide comprehensive technology solutions that deliver sustainable value by meeting critical needs in today's challenging environment. Our goal is to help our customers successfully navigate the changing healthcare landscape while providing quality care and maximizing their investments."

Being ranked #1 by Black Book comes after Anthelio expanded its RCM portfolio through the acquisition of Pyramid Healthcare Solutions, a move which positioned Anthelio as the largest independent provider of Health Information Management Services. The acquisition also enhanced Anthelio's footprint in the patient financial services arena and added Cancer Registry Services to its portfolio.

Anthelio Healthcare Solutions Black Book ranking was released at the recent HIMSS16 trade show in Las Vegas. Anthelio had a strong presence at the show and drew much interest in their industry-leading software products including patient engagement and legacy archive solutions, as well as their new RCM Analytics Genie, an innovative web-based application that empowers healthcare providers to identify revenue bottlenecks, manage reimbursement trends, increase staff productivity, maximize net revenue and accelerate cash flow.

"We are extremely grateful to our loyal customers who have chosen us to be their service partner. Their ongoing trust in our products, services and highly skilled employees - who have a passion for excellence - made the Black Book top ranking possible," Ahmad concluded.

About Black Book

Black Book Rankings, a division of Black Book Market Research LLC, provides healthcare IT users, media, investors, analysts, quality minded vendors, and prospective software system buyers, pharmaceutical manufacturers, and other interested sectors of the financial and clinical technology industries with comprehensive comparison data of the industry's top respected and competitively performing technology, services and outsourcing vendors.

The largest user opinion poll of its kind in healthcare IT, Black Book™ collects over 400,000 viewpoints on information technology and outsourced services vendor performance annually. For methodology, auditing, resources, comprehensive research and ranking data see <http://www.blackbookrankings.com>.
